

SUCCEED

Feeding tubes fill stomachs, but sharing meals fills hearts

Gold standard home nasogastric tube feed

In just 60-90 minutes

We show one safe, joyful way to feed an infant or child using an NG feeding tube. The course covers:

- Tube feeding as a mealtime
- Safety
- Responsiveness to child cues
- Family friendly approach
- Preparing for oral feeding when possible

Who is the course for?

Anyone wanting to learn how to tube feed a child

- Parents
- Health professionals
- Aunties, uncles, grandparents
- Babysitters
- Day care
- Early childhood educators

No prior experience needed! You are welcome at any point in your tube feeding journey.

Who are we?

SUCCEED Child Feeding Alliance is a non-profit organisation dedicated to improving the lives of families with children who tube feed

The course is facilitated by parents with lived experience of tube feeding and other members of SUCCEED

How does it work?

A combination of demonstration and hands-on practicals using purpose-designed manikins. We teach the research-based, peer reviewed [SUCCEED gold standard](#).

Join a course on 03 November
